### Metro Image Uploader Crack + Activation Code With Keygen

Metro Image Uploader is a software solution designed to serve as a simple means of transferring files from a local folder onto a remote FTP server. With Metro Image Uploader you can also get the Bulletin Board Code (BBCode) needed to post the picture links on forums or message boards. What's new in this version: Added the option to show the progress bar in case of uploading a large file. Improved the program's behavior in case of a "windows" problem during the upload. Fixed the name of the image that is displayed in the "Preview" dialog. Increased the maximum size of the file that can be uploaded. Reduced the minimum size of the file that can be uploaded. Reduced the size of the temporary file created for the image. Added the capability to upload files from a DVD or a USB flash drive. Now is not necessary to restart the application after the image has been uploaded.
